WHO IS BEHIND NAFDA?

We are a group of independent Lebanese citizens, NGO members, educators, education experts, who came together to jump-start this effort. **None of the members are affiliated with any parties or political movements.**

We do share a passion for education, a bias for action, and a desire to see change in the education system that is grounded in the foundational values of **social justice, engaged citizenship, and good governance.**

This effort is being powered by Kulluna Irada, a civic organization for political reform. Kulluna Irada is working towards setting the foundations of a modern, secure, efficient, sustainable and just state through strong and fair governance. For more, visit: <https://kulluna-irada.org>

As Kulluna Irada is a lobby group and not a political party, **Nafda remains independent and not affiliated to any party or political movement.**
